

SureColor SC-T Series range

Professional printing that captures every detail

EPSON[®]
EXCEED YOUR VISION

Transformation through innovation

Whether this is your first investment in a large format printer or an expansion of your current print and repro facilities, look no further than the Epson SureColor SC-T Series range.

We are in control of the whole design and manufacturing process and every printer in the range features Epson's unique PrecisionCore MicroTFP printhead technology. This guarantees exceptional performance and productivity, perfect for all businesses of any size.

If you want a printer for the occasional oversized poster or blueprint, or need regular large format printing on a variety of media, we have the printer that suits your needs.

PrecisionCore MicroTFP printhead technology

Epson and the environment

All our products are developed with an ecologically sustainable life cycle in mind. Epson designs products with a view to minimising environmental impacts and CO₂ emissions across the entire product life cycle. This includes energy and resource-saving design, the elimination of harmful substances in the manufacturing process and using minimal packaging. Epson also offers a choice of ink cartridge sizes that help to keep costs down, and are hassle-free to replace. All Epson ink cartridges are recyclable.

Peace of mind

Your Epson printer comes with a minimum one year on site warranty and we recommend that you register your printer with us as soon as you take delivery. And while we're confident it will give you years of reliable service, we wouldn't want you to get caught out by an unexpected error or fault. Keep your production line running and stay supported with an optional Epson CoverPlus onsite extended warranty.

For further information on CoverPlus warranty protection, please contact your local Epson representative.

Introducing the latest generation of Epson large format multi-function printers

From the occasional oversized print requirements, to investing in your business and becoming more productive, the new entry level SureColor SC-T Series desktop and floor standing printers (SC-Tx100 and SC-Tx405) will put you back in control – of output, cost and flexibility.

With modern, clean aesthetics and a minimal footprint, these printers deliver top-of-the-range performance for superior and detailed output. Even if you only need large format print now and again, you'll still receive outstanding results with no degradation from blocked printheads or dust contamination from lack of regular use.

Not at your desk? The SureColor SC-Tx100 and SC-Tx405 models have network connectivity including Wi-Fi printing via compatible devices which support Direct Wi-Fi, as well as Apple AirPrint™.

Designed and built for your next project

When selecting a large format printer, do you choose quality over speed or economy over productivity? With SureColor SC-Tx200 printers, there's no need to compromise.

Available in multiple configurations, there is a model to match your exact needs. You have a choice of 24-inch, 36-inch and 44-inch printers with the option of single or dual rolls, multi-function capability (Print, Scan and Copy) and Adobe® PostScript® 3™ support. All are equipped with state-of-the-art technology, enabling them to perform complex jobs with ease.

A choice of high-capacity ink cartridge sizes offers a low total cost of ownership, ideal for regular large format printing across a wide range of media up to 1.5mm thick.

A large format printer tailored to your business

For speed, convenience, versatility, better productivity and cost control, maximise profits by bringing your large format printing in-house.

Low operating costs and high-speed printing on a wide range of media will make sure your investment pays for itself many times over, particularly if you're transitioning from an outsourced print supplier. Produce bigger documents without compromising on quality. Print directly from your mobile device with our networked models.

Architects

Display your CAD designs in outstanding detail

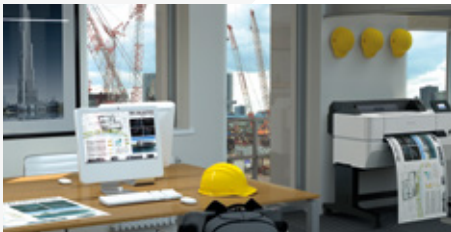

Create new perspectives and allow your clients and associates to explore the richness of your designs, renderings and graphs with stunning full-colour displays, brilliant detail and sharp photography. The SureColor SC-T Series large format printer range handles the requirements of CAD printing and plotting, blueprints, along with the business proposals and documents that are needed for the client and legal aspects of your projects.

Advertising agencies

Get noticed and get your message across

Make a splash and grab your clients' attention by creating vibrant, customer eye-catching advertisements quickly and seamlessly. Print everything from large photo quality posters to banners. A large format printer will increase your marketing efficiency, allowing you to transition from one marketing creation to the next with ease.

Engineering

Print incredible detail, fast

Low costs and high speeds make the SureColor SC-T Series large format printers ideal for engineers. Produce detailed and accurate large-scale drawings, renderings, schematics, blueprints and more. Long performance printheads and less frequent cartridge replacement means you control the quality of the prints, saving you time and boosting your profits.

Small businesses

Embrace your creativity

From posters and banners to presentations and graphics, what says more about your business than big, bold images of customers enjoying your products or services? Large-format printing elevates your brand's image to a level beyond anything you could imagine, making your business stand out from the crowd.

Reprographics

Delight your customers with stunning quality

The SureColor SC-T Series printers integrate seamlessly into your workflow, with our Automated Print application or using the optional Adobe® PostScript® 3™ module (for the higher end models) supporting PDF, JPEG and Tiff formats. We can also print from CAD files and a wide variety of desktop publishing applications and design software packages.

Estate agents

Rise above the crowd

With a large format printer you could print your own board signs, hoarding signs, scaffolding banners, floor plans, window clings and wall maps – everything you need created in-house to promote your business and get the best results for your clients.

Education

Inspire young minds

Schools, colleges and universities are often required to have the latest technology to encourage and inspire the next generation. The SC-T3100M and SC-T5100M can aid in scanning any classroom material to increase productivity and functionality. Enthuse students and teachers alike by generating stunning printed collateral for the classroom and print promotional materials for school events, in-house.

Construction

Control costs and increase flexibility

Impress clients and partners with your presentation of large format documents and plans with superb image clarity, quality and detail. With a truly integrated scanner for fast reproduction, the SC-T5400M makes putting the CAD drawings or other plan renderings on paper simple. Print and scan even from your phone or tablet and share directly. The perfect choice to rapidly and accurately create indoor building signage, building wraps, scaffolding covers and large mesh banners in-house and cost effectively.

Exceptional quality and performance across the range

Professional performance at every level

Everything you need from Epson – quality, innovation and performance – in a compact design to fit even the smallest work spaces. The low total cost of ownership is ideal for business owners moving from outsourcing large format print production to in-house facilities. Networked Wi-Fi connectivity allows you to print anywhere using a mobile device and compatible apps.

The SureColor SC-Tx100, SC-T3100x, SC-Tx405 and SC-T5400M models have the smallest footprint of all our large format printers to fit into the most compact work spaces. The SC-T3100x is the first 24-inch printer to come with a refillable ink solution, so ink can be topped up whilst the printer is in operation. The SC-T5400M has a fully integrated scanner that will scan up to 30.5 meters in one pass.

With high speed large format inkjet printing, speeds from 22 seconds for an A1 page, and no loss of quality using UltraChrome XD2 ink, you'll be amazed at the results.

SureColor SC-T2100, T3100, T3100x, T3100N, T5100, T5100N

Entry level desktop or floor standing large format printers with our smallest footprint, and flat surfaces for the most economic spaces. Create large format, professional quality detailed prints on a daily basis or as required. Pigment ink cartridges are available in a range of sizes to suit your printing needs. The SC-T3100x operates real time refillable tanks from individual 140ml bottles.*

* SC-T3100x model only

SureColor SC-T3405N, T3405, T5405

Entry level desktop or floor standing large format printers requiring minimal space and set up. A user interface that's intuitive and accessible. Produce stunning prints time after time with no loss of colour or detail. Expand your productivity with a range of ink cartridge sizes: 110ml, 350ml and 700ml.

Versatile, flexible large format printing

A large format printer for every workspace

From posters and banners to wall art, indoor or short-term outdoor signage to blueprints, bring your creations to life with the SureColor SC-T Series. With a choice of 24-inch, 36-inch and 44-inch, every printer includes our PrecisionCore MicroTFP printhead, guaranteed to last a lifetime. UltraChrome XD ink delivers durable prints that are smudge-proof and water-resistant. All models also come with 1GB RAM for rapid image processing and we offer an optional 320GB HDD upgrade for job caching and recall.

The range will continue to expand with innovative technology to ensure safe, secure printing of highly confidential files. This compact, user-friendly range has been created with AEC and CAD professionals in mind.

We also offer the following:

Models with multi-functional print, copy and scan functionality

Optional Adobe® PostScript® 3™ support with 2x1.6GHz CPUs, allowing you to print multiple formats, including data-rich files, quickly and directly

Specific models are available in a standard or dual roll configuration allowing auto-paper loading and switching between rolls

A range of ink cartridge sizes – 110ml, 350ml and 700ml.

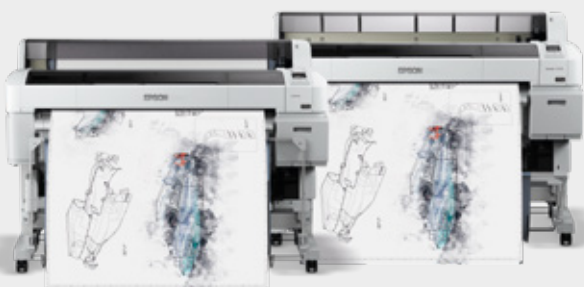

SureColor SC-T3200

24-inch 4-colour large format printing with speed and accuracy. Intuitively connects with a wide range of graphics, CAD and GIS programmes making it ideal for busy production environments. Available as a standard configuration only (single roll).

SureColor SC-T5200, SC-T5200D

36-inch 4-colour large format printer. Top resolution and image quality. Incredibly simple to use for design professionals and novices alike. Capable of syncing directly with a wide range of CAD and leading design programs – perfect for the versatile and multi-discipline design office. Available in a standard configuration or as a dual roll.

SureColor SC-T7200, SC-T7200D

44-inch high speed, 4-colour large format printer combining performance, quality and value for money. Delivering maximum productivity and flexibility, it's ideal for use with CAD, reprographics, education and printing POS posters. It offers an unbeatable mix of accuracy and speed. Available in a standard configuration or as a dual roll.

Multi-function technical printers that deliver precise results

The multi-function printers are perfect for technical printing and scanning, even for detailed handwritten annotations. Affordable and easy to use, you'll produce precise, high-quality prints every time.

SureColor SC-T3100M

At just 24-inches (610mm) wide, the SC-T3100M offers the best price performance in Epson's multi-function range segment. This model can scan up to 4.5 inches per second and up to 2.72m in length, delivering exceptional print quality, at speed. Ideal for point of sale shops and poster production, you can print an A1 image in just 34 seconds.

SureColor SC-T5100M

Featuring all the benefits of the SC-T3100M, this multi-function printer is its larger, 36-inch (914mm) counterpart. This model is a step up for construction businesses looking for the top quality of a low-volume printer, but with increased productivity levels.

SC-T5100M, SC-T5100 and SC-T5400M include direct scan and print function from USB - including PDF at no extra cost¹.

SureColor SC-T5200 MFP, SC-T5200D MFP

36-inch, 4-colour large format printer with integrated screen for scanning, copying and sharing. Create sharp and accurate prints cost-effectively. Available in a standard configuration or as a dual roll.

SureColor SC-T5400M

This large on-site printer can scan up to 30.5m. At 36-inches (914mm) wide, and as the most versatile and efficient model, it can fit seamlessly into any construction, engineering or architecture office. It prints on both matte and glossy media, and offers borderless printing up to A0 size. Capable of a 0.02mm black line width, you won't lose any detail on documents (110/350ml).

SureColor SC-T7200 MFP, T7200D MFP

44-inch high speed, 4-colour large format printer with integrated screen for scanning, copying and sharing. Copy an A1 document in as little as 39 seconds, and produce an A1 print in 28 seconds. Documents and photographs will scan with 600dpi optical resolution for clear copies in both colour and black and white. Available in a standard configuration or as a dual roll.
