PANTONE®

Color Bridge Guide Coated

Translate Pantone Colors Into CMYK, HTML, And RGB

SKU GG6103C

Side-by-side comparisons of all Pantone Spot Colors with their closest industry-standard CMYK color matches, including 200+ of our newest shades of both core tones and energetic hues. Formulated to match G-7 calibrated CRPC6 and CRPC3 press references to accurately manage and visualize color conversion, color expectations, and color matching.

Versatility — Translate Spot Colors to CMYK, RGB, and HTML.

Eco-Friendliness — New eco-friendly ink formulation allows for coating Pantone Colors during print production to protect prints and packaging applications.

Portability — Compact, handheld fan deck that includes the 224 newest colors printed on coated paper.

Connectivity — Integration with Pantone Connect for Adobe Creative Cloud, which allows you to take your physical Pantone Colors into your digital workflow.

With the Pantone Color Bridge Guide Coated, everyone around the world can create color consistently. Contact your Pantone Account Manager or email sales@pantone.com to learn more.
